Let's get started.

Once you have been enrolled in the program, it's important to understand the step-by-step process.

UNDERSTANDING THE PROCESS:

- 1.** Your doctor will send your prescription and the Patient Services Enrollment Form into AfrezzaAssistSM.
- 2.** Our team will determine your insurance coverage and copay amount for Afrezza.
- 3.** Some insurance plans may ask your doctor to submit extra documentation, also known as a prior authorization, before approving Afrezza. We will help your doctor through this process.
- 4.** Once approved, we will coordinate delivery or pickup of your prescription through our network of pharmacy partners or a pharmacy of your choice.
- 5.** If you encounter any coverage barriers or delays, you may be eligible to receive Afrezza at no cost to you while coverage is being pursued. We will work with your doctor directly.

Please see Important Safety Information including BOXED WARNING for Afrezza including Medication Guide and Instructions For Use on www.afrezza.com and by clicking [here](#).

We've put together some of your most frequently asked questions about our program and getting your prescription.

Do I have to use a pharmacy within the AfrezzaAssistSM Network?

Afrezza[®] can be filled at any pharmacy, but pharmacies within our network are very experienced with Afrezza.

You always have the right to request that your prescription be transferred to a pharmacy of your choice. Once one of the pharmacies in the network contacts you to coordinate delivery or pick-up, you can ask them to transfer your prescription to your local pharmacy.

What if my insurance doesn't approve my Afrezza prescription?

By utilizing the AfrezzaAssistSM Patient Support Program, eligible patients who encounter coverage barriers or delays can receive free product while coverage is being pursued.

This will allow you to start on therapy while your doctor continues to work with your insurance and AfrezzaAssistSM to get Afrezza covered.

Your questions **answered.**
